

Conclusion & Future Scope

Future Enhancements

Character consistency, multilingual support, speech bubbles, more art styles, cloud storage, user authentication, mobile support and collaborative editing.

Learning Outcomes

Practical experience in FastAPI, API integration, Generative AI, image synthesis and full-stack web development.

Conclusion

ComicCraft successfully integrates AI-powered story generation, image creation and PDF export into a single user-friendly application. The project achieves its objectives and provides a strong foundation for future development in AI-assisted creative media.

Final Remarks

The project highlights how modern AI technologies can simplify digital storytelling while encouraging creativity and reducing manual effort.
